Statement of Reasons for Allowance

1. Claims 27-31, 42-46, and 57-64 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The present invention is directed to a method for developing a business rules based application, wherein a set of wizards and verbs are provided to users for selection to specify and to define a number of actions to be performed.

Claims 27, 42, and 57 recite, or similarly recite, in combination with the remaining elements, the step of assigning a child status or next status for each of the actions in a user-specified hierarchical order to set the order of execution of the number of actions in the application.

The closest prior art, Audleman et al. (US 6,806,890) and Wygodny et al. (US 6,202,199 B1), show a substantially similar method for constructing a business rules based application. However, Audleman et al. and Wygodny et al., singularly or in combination, still fail to anticipate or render the above cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
